

COMBINATION NIPPLES

Combination nipples are designed as a low cost hose shank fitting. These units are manufactured from zinc plated steel and are threaded with male BSP threads. They are suitable for low pressure & suction applications for the conveyance of various liquids. Not to be used in compressed air applications. (50mm & 80mm Available in 304 Stainless Steel on request.)

Part No	Description
XSCN20	20mm Combination Nipple
XSCN25	25mm Combination Nipple
XSCN32	32mm Combination Nipple
XSCN40	40mm Combination Nipple
XSCN50	50mm Combination Nipple
XSCN80	80mm Combination Nipple
XSCN100	100mm Combination Nipple
XSCN150	150mm Combination Nipple

MALCO PIPE REPAIR COUPLINGS

Malco repair couplings are manufactured from malleable iron with a hot dip galvanised coating. Short body Malco compression couplings provide a reliable, quick and permanent repair for steel pipes.
