

GREEN STRIPE RURAL 800 PIPE

Recommended Use:

For use in rural areas – above or below the ground in water transfer, Irrigation, stock watering and other medium pressure applications.

Features:

- ✓ Excellent U.V. stability
- ✓ Green line to signify imperial rural pipe.
- ✓ RX Rural 800 Green Stripe Polyethylene pipe is manufactured from pipe grade, all virgin polyethylene compound with a design life of 20 years.

Nom I.D.	Min I.D.	Min Wall	Nom Pressure Rating @ 20° C	Stock Lengths
¾"	18.6mm	1.4mm	800kpa / 116psi	50m & 200m
1"	24.1mm	1.5mm	800kpa / 116psi	50m & 200m
1 1/4"	31.2mm	1.9mm	800kpa / 116psi	50m, 150m & 300m
1 1/2"	37.6mm	2.2mm	800kpa / 116psi	50m, 150m & 300m
2"	50.2mm	3.0mm	800kpa / 116psi	50m, 100m & 200m

Note: this products is measured on the I.D.

Green Stripe Rural 800 Polyethylene Pipe manufactured by RX Plastics Pty Ltd contains only virgin, pipe grade, polyethylene resins. The addition of carbon black as a U.V. stabilizer makes our pipe suitable for rural applications above and below ground.

Note: Please refer to RX Plastics if you wish to operate outside these parameters, Increases in temperature affect design life and working pressures.
